

## Workshop Agenda

### *Topic: Incrementally securing tenure in informal settlements*

#### Background

Urban LandMark is developing an approach for the recognition of informal settlements and tenure security in South Africa, with potential regional applicability. “Special zones” and “local land offices”, among other mechanisms, will be explored and their applicability tested. This is an inception workshop at which it is intended that participants will be provided with background and context on the project, and that participants will provide feedback on the development of the approach.

**Date: 29 January 2009**  
**Venue: The Airport Grand Hotel**
